CAREER OBJECTIVE

Innovative and detail-oriented professional specializing in web and mobile development and graphic design. Seeking to leverage technical expertise and creative skills to contribute to cutting-edge projects, enhancing user experiences and driving successful outcomes within a forward-thinking organization.

WORK EXPERIENCE

Graphic Artist   October 2023 – April 2024
Colorado Photo Studio / Colorado Graphix   *San Fernando, La Union*
- Captured high-quality professional photographs for passports and government documents, ensuring compliance with strict standards.
- Designed a variety of visual materials—including logos, tickets, posters, stickers, podium designs, and event backdrops—enhancing client branding and event experiences.
- Expertly operated and maintained large-format printers, ensuring optimal performance through regular maintenance and swift troubleshooting of technical issues.
- Provided exceptional customer service by assisting clients with their photographic needs, ensuring satisfaction and fostering repeat business.

Software Developer & IT Assistant   February 2023 – January 2024
Lorma College   *San Juan, La Union*
- Developed and implemented an attendance monitoring system for students, enhancing efficiency and accuracy in record-keeping.
- Coordinated room reservations and schedules for classes, meetings, and activities, facilitating smooth operations among instructors and staff.
- Monitored and optimized the utilization of department rooms, maintaining a conducive environment for learning and work.
- Provided prompt technical support to students and faculty, efficiently resolving software and hardware issues to minimize downtime.

PROJECTS

Mobile Attendance System | *HTML/CSS, Bootstrap, React Native JavaScript*   February 2023 – June 2023
- * Designed and developed a mobile-responsive application that automates attendance tracking by scanning QR codes for both teachers and students. This system logs classroom usage and saves time on introductions, significantly enhancing operational efficiency and ensuring accurate record-keeping.

Event Planning System | *HTML/CSS, Bootstrap, PHP, MySQL*   October 2022 – January 2023
- * Developed a comprehensive web-mobile application that simplifies event planning by offering customizable packages for photographers, caterers, venues, and more. This platform connects customers with service providers, streamlining the planning process and ensuring a hassle-free experience.

TECHNICAL SKILLS

Languages: JavaScript, PHP, SQL, HTML/CSS
Developer Tools: Git, Google Cloud Platform, VS Code, Netbeans, XAMPP
Design Tools: Adobe Photoshop, Adobe Illustrator, Canva

EDUCATION

Lorma College   Urbiztondo, San Juan
Bachelor of Science in Information Technology   *June 2023*
